Important Rate Information

It is our goal to provide you with an accurate report based on the information provided. Although we believe the rate and benefit information to be current and correct, keep in mind that final rates and benefits are based upon actual enrollment. We assume no liability for rate or benefit level differences and ask that you not cancel your current group insurance policy until a new policy is approved and you have confirmed the rates and benefits to your satisfaction. This is a summary of plan rates and benefits. For comprehensive details refer to the Master Contract or Benefits Booklet.

Carriers participation guidelines will determine plan eligibility. Rates illustrated on this report are reflective of the carriers "Standard Risk Rates" plus or minus any risk adjustment factor applied to the final rates. Keep in mind that final rates and benefits are based on actual plan selection (including plan riders you may request), the Employee's zip code of residence, the Employer's SIC code, and the assignment of any rate adjustment factors due to the health plan's underwriting guidelines.

Do not cancel your current coverage until a new policy is approved and you have received written confirmation of the policy's rates and benefits by the insurance companies underwriting department. Rates in this report are subject to change without notice.

Important California Disclosure Advisement and Notification: As provided in the California HealthCare reform bill "AB1672", all insurance carriers are obligated to sell any small group employer any health plan offered to any other small group. You may request the actual rates that would be charged for any given small group plan design by the carrier, or by your broker representative. You may also request a Summary Brochure for each plan offered to you in this report.

Footnotes to the Plan Name/Description

* One or more employees reside outside of the plan service area and therefore the total premium quoted for this plan does not include rates for all employees.

Footnotes to the Employee Name field
